Professional Summary

Results-driven Software Engineer specializing in Hybrid Mobile App Development with React Native. Recently graduated with a Bachelor's degree in Software Engineering and hands-on experience delivering scalable, high-performance mobile applications through internships and real-world projects. Proven ability to build user-centric solutions with clean architecture, seamless UI/UX, and efficient backend integration. Passionate about continuous learning, innovation, and transforming ideas into impactful digital products.

Employment History

React Native Developer <i>Outscalers</i>	<i>May 2025 – Present</i>
React Native Developer Intern <i>Codex cue</i>	<i>Nov 2024 – Dec 2024</i>
React Native Developer Intern <i>Code Alpha</i>	<i>Oct 2024 – Nov 2024</i>

Education

PMAS Arid Agriculture University Rawalpindi <i>BS in Software Engineering</i> <ul style="list-style-type: none">◦ GPA: 3.23/4.0	<i>2021 – 2025</i>
Fauji Foundation Higher Secondary School Kallar Kahar <i>Intermediate (Pre-Engineering)</i>	<i>2020 – 2021</i>

Certifications

React-Native (Mobile App Development): Authorized by UIIT, *Offered by Aridian Array Software Society.*

Programming with JS: Authorized by Meta, *Offered by Coursera.*

Python: Authorized by Certiport, CertNexus, Pearson, *Offered by NAVTTC*

Technologies

Languages: JavaScript, TypeScript, Java

Technologies: React-Native, Expo, Cli, Firebase, VSCode, Github

Projects

Flowvest App - Investments management app

- Designed and developed Flowvest, a cross-platform mobile application using React Native.
- Implemented authentication flow (login, logout, token management) with secure API communication.
- Integrated Axios interceptors to automatically attach authorization tokens and handle API errors globally.
- Managed application state using Redux for predictable and scalable state management.
- Consumed RESTful APIs to fetch and update user-specific financial data.
- Ensured clean architecture and reusable components for better code maintainability.

Medical App Suite – Interconnected Mobile Applications (Doctor, Nurse, Receptionist, Pharmacy)

- Worked on a multi-app healthcare solution consisting of 4 interconnected applications for doctors, nurses, receptionists, and pharmacies.

- Implemented new functionalities and resolved critical bugs to improve app performance and stability.
- Utilized MMKV storage for fast and efficient local data management.
- Contributed to optimizing the user experience, ensuring smooth cross-app data synchronization.

Prime Find App

- Built a cross-platform e-commerce app in React Native that recommends high-quality products by analyzing ratings, reviews, and price.
- Developed an intelligent e-commerce app that enhances user experience by filtering and recommending top-rated products based on reviews and price.

Quotes Generator App

- Developed a Random Quotations Generator App in React Native with an API
- Tools Used: JavaScript, React Native

Flashcards Quiz App

- Developed a Quiz app where u can make and take Quiz from someone else using React Native and local storage
- Tools Used: JavaScript, React Native, Api

Blog Sphere

- Developed a blog app using React Native and an API
- Tools Used: JavaScript, React Native.

Fitness Tracker App

- Developed a fitness tracker app using react native and firebase
- Tools Used: JavaScript, React Native, Firebase
